

EDUARD TELLER

SOFTWARE DEVELOPER

I recently graduated with a Bachelor's degree in Information Technology from TalTech. While studying hardware development and programming, I discovered my interest in software development. I have created several software projects both during my studies and on my own. What I enjoy most about software development is solving problems and working in a team.

Team Work,

Problem solving,

Java, Javascript, C, C#,
Python, Spring, Next.js,
Expo, Git, Docker, AWS,
CI/CD, PostgreSQL, Sqlite,
Supabase, MongoDB

LANGUAGES

Eesti keel (*emakeel*)

Vene keel (*emakeel*)

Inglise keel (*Cambridge B2*)

EDUCATION

Tallinn University of Technology

2022 - 2025 | Hardware Development and Programming

WORK EXPERIENCE

AI Eesti, Software Developer

February 2025 - June 2025

- I built a system using Java Spring and React to automate real estate valuation documents. This helped save a lot of manual work time.

Maxima, Customer Service Assistant

June 2021 - August 2021

- Helped customers and managed goods in the store.

PROJECTS

E-Kell – School Bell Management

- I created a desktop app using Electron to manage school bells. It works in real-time with a React web client.

Kahoot! clone

- I built a responsive user interface with React and a backend with Express. I used WebSockets and RESTful APIs for real-time communication.
